PROJECTS

Smart Timetable Display

29 Jul, 2024 - 17 Dec, 2024

Mentor: Prof.Amit Nagrale | **Team Size:** 2

Designed and developed a Smart Timetable Display system to streamline and automate scheduling. The system dynamically updates and displays real-time class schedules, reducing manual workload. With a user-friendly interface and seamless integration with institutional databases, it ensures easy access to up-to-date schedules, improving efficiency and convenience for students and faculty.

Under water LIFI communication

28 Aug, 2023 - 18 Jun, 2024

Mentor: Prof.Nikhil Sardar | **Team Size:** 4

Implemented a laser-based LiFi system using Arduino and a Bluetooth module. The system converts messages from a mobile app into binary signals, controlling the laser to blink accordingly. The LDR module captures and decodes the light signals, displaying the original message on an LCD.

Digital Yoga Assistance

Mentor: Dr.Dipti Sakhare | **Team Size:** 4

Key Skills: Python

Developed a Python-based Digital Yoga Assistant to provide personalized yoga guidance through an interactive and visually appealing GUI. Designed a user-friendly interface with integrated images to enhance the experience. The system offers pose recommendations, guided sessions, and real-time feedback, making yoga accessible and engaging.
